Flattering Facts

Here are a few tips to help you choose the right suit.

- moderate-cut legs flatter most body types
- high-cut legs flatter long, slim legs
- high necklines lengthen torsos
- top colorblocking and high or square necklines disguise a full bust
- shirring camouflages heavy torsos and gives shape to short-waisted bodies
- all-over prints keep the eye moving and help disguise problem areas

Look for the words in pink to see what each swimsuit has to offer you.
